STAINED GLASSWARE

ALASKA INSPIRED ONE OF A KIND ART

Select from a variety of styles and color combinations to build the perfect set of beautiful glassware for you! Build a set that is all one style or made of different styles. Every glass is one of a kind, so use these “ideas” as a guide. My designs are inspired by the beauty and magic of the Alaskan landscape, plants, and animals.

To create your glass or set:

1. Select the collection and color combination you like (pages 4-9)
2. Select the glass types you want (pages 10-15).
3. If you prefer, allow me to design a custom set to match your needs. Choose your basic colors, accents, and wire preferences.
